

## **Sixteen Something**

**I went out to the market  
to buy some food and flowers too  
and when I turned around slowly,  
that someone standing there was you**

**And when my eyes met your eyes,  
something happened deep inside  
My heart was beating like a drumset,  
I could'nt hide it though I tried**

**We had a walk and a coffee in your flat  
Went to the movies in the afternoon  
I can't remember any of that story  
just you - so near by my side**

**Your touched a string  
like you play your guitar  
And you told me that you were  
coming back from very far  
and that life is so exciting  
like the very first time  
and you feel somehow.....**

**like sixteen something  
like sixteen something**

**Since that moment I miss you  
every time you're not around  
and even I don't really know you,  
it's so familiar what I have found**

**I felt like this long time ago  
I never thought that I would meet you again  
So many years have passed, it seems so unreal  
You, so near by my side**

**Your touched a string.....**

**like sixteen something....**
