

Up and Down

**In my dreams I'm standing on a mountain
sparkling stars in my hands
I could lay my head on a pillow
of white diamond sand
The wind is cooling my face
and my view reaches the end of the world
It took me a long way to get up here
so leaving this place doesn't make sense**

**Happiness is changing place with pain
Up and down, it's driving me insane
But that very puzzled feeling
deep inside - tells me - that**

**Life can be wonderful, life can be mean and cruel
Life doesn't need us stupid fools
But it's the best teacher..... and school**

**In real life I'm just one of a million
who troubles herself through the waves
I know I can make my decisions
but in the end we are only slaves
Time does not stop or run backwards
and what is done is just done
I see myself in a replay
then even this memory is gone**

**Happiness is changing place with pain
Up and down, it's driving me insane
But that very puzzled feeling
deep inside - tells me - that**

**Life can be wonderful, life can be mean and cruel
Life doesn't need us stupid fools
But it's the best teacher..... and school**
