

We are Single, we are One

**We're a couple, we're two people, we are single, we are one
And we are wasting so much time to find out what's right or wrong
And my weaknesses are reflecting like in a mirror in your eyes
We are learning, but we are never getting wise.**

**In the morning when I get up for work
you watch the sunrise with sleepy eyes before you go to bed
In the night when I lie down it's release
I take off my mind and thoughts,
as I'm doing with my clothes**

**But your mind is getting restless
and you can't find any sleep
As I'm drifting through my dreamlands alone
And the distance can't be bigger
even when we're lying so close**

**We're a couple, we're two people, we are single, we are one
And we are strong when we are together and loneliness is gone
And it seems I have spent all my life to find someone just like you
and I am happy 'cause you feel the same way too**

**There are moments when our thoughts seem to fuse
You are telling the expression I just got on my mind
And the future seems much brighter to me
'cause there is someone by my side, walking it with me**

**And our minds are getting peaceful
and there's nothing left to wish
as we are walking hand in hand through the night
All my doubts, all my sorrows
they're forgotten and vanished with the light**

**We're a couple, we're two people, we are single, we are one
And we are strong when we are together and loneliness is gone
And it seems I have spent all my life to find someone just like you
and I am happy 'cause you feel the same way too**
