

Two Faces

vse 1

Each of our days can be pain or fun
Each of our days can have rain or sun
It's a damn long way from the first step on
Spring in the morning and winter at dawn

vse 2

Walking and watching then gather the speed
What's important, what do we really need?
Buying, collecting - drown in this wall
All those chains, we don't need them at all.

bridge

Prison deep in our hearts
Passers-by right from the start

Refrain

Two Faces, One broken heart
Who will answer all these questions we have?

bridge instrumental

vse 3

Money brings power, we show what we have
Look at them losers and give`em a laugh
No time for feelings, no time to be weak
Running on empty, a soul with a leak

vse 4

Rigid opinions without any doubts
The more you're unmasked, the louder you shout
Smiling while laughing your winning each game
Inside you're empty and outside just fame

Refrain

Two Faces, One broken heart
Who will answer all these questions we have?
